1.	What is the name of the composable used to add text visibility animations?	1/1 point
	AnimatedVisibility	
	O Visibility	
	O visible	
	⊘ Correct That's correct. The AnimatedVisibility composable is used to add text visibility animations.	
2.	What is the name of the enter transition that was added to the text?	1/1 point
	of fade out	
	O slide in	
	• fade in	
	 Correct That's correct. Fade in transition was used to show the text gradually over time. 	
3.	remember delegate preserves visible variable state during recomposition.	1/1 point
	● True	
	○ False	
	Correct That's correct. The remember delegate helps to preserve visible variable value after each resomposition. Without remember delegate the visible variable value would be rested after each recomposition.
